RAISING TECH-HEALTHY HUMANS

Church Partnership Pack

Every pastor is aware of the challenges parents face with screen time, smartphones, and social media – issues that deeply impact the faith-formation of children in church communities.

"Raising Tech-Healthy Humans" is an online course for parents and carers of young children and pre-teens, based on Daniel Sih's award-winning book and tech-parenting seminars.

This free resource will empower church communities to guide their families through the complexities of the digital world in a healthier, more balanced way.

How it Works

1 Share the link **www.raisinghumans.au/church** to allow parents in your church community to access the course for free.*

2 Visit **www.raisinghumans.au/media-christian** to download engaging marketing resources to help you communicate with your congregation, including newsletters, internal emails, bulletins and private groups.

3 Encourage tech-healthy conversations in small groups by using the reflective questions at the end of each video lesson to inspire and guide action.

Note: As this is typically a paid course, we kindly request that you refrain from sharing the sign-up link on public social media platforms or distributing it widely.

What's Included

Quality Training Videos
15 FREE tech-parenting videos based on Daniel Sih's award-winning book, "Raising Tech-Healthy Humans"

Screen Time Infographics
Print ready handouts

Fun Activity Checklist
To print and use on weekends
